

COMMUNITY MATRIX

The following attachment includes:

- **Community Summaries**

- Objectives of the April 2004 Working Copy map for the community
- Key community issues
- Community specific planning rationale
- Traffic forecasts

- **Level of Service Map**

- A community level map showing forecasted road conditions. Traffic model runs conducted by SANDAG for the August 2003 Working Copy map were used to simulate probable traffic conditions for the April 2004 Working Copy Map.

- **Location Map**

- A community level April 2004 GP2020 Working Copy map shows the general location of the and the referral number that corresponds to the matrix

- **Residential Property Matrix**

- Owner requested property referrals
- Board of Supervisor added property referrals for traffic modeling
- Areas with issues of internal consistency of designation application
- Staff recommended changes to the August 2003 Working Copy map

Key objectives and a planning rationale appear on the matrix only for areas where the density on the April 2004 Working Copy map is different than the Board of Supervisor October traffic model run scenario.
